Good morning – and congratulations!

I'm writing on behalf of the steering committee for scholarship of teaching and learning efforts on campus. We'd like to thank you for applying for the SOTL grants offered through the Provost's office. We received a number of very strong applications for our limited pool of funding.

Your application to participate in the Scholarship of Teaching and Learning Faculty-Student Partnership has been approved. This program will offer you \$1000 per project to be used to pay a student for assisting you with your research into student learning in your classes. It will also offer you up to \$500 per project for project-related travel and or supplies.

We are excited to be able to fund these faculty-student partnerships. We believe that students have much to say about their learning and that both you and they will benefit from the experience.

I will be in touch soon with details about the financial arrangements. I will also schedule a group meeting at the beginning of the semester to help us get to know each others' projects and to build a scholarly community around the subject of teaching and learning.

Congratulations on this honor – I look forward to working with you next year!
