

June X, 2009

Dear Editors,

I am enclosing a submission to the *International Journal of Psychosocial Rehabilitation* entitled, "Recovery in Schizophrenia: The Viability of Recovery and Can Psychoanalysis Play a Role?" The manuscript includes a 9-page body, 5 pages of references, and a 1 page abstract.

I do not have any interests that might be interpreted as influencing the research, and APA ethical standards were followed in writing this manuscript. This manuscript includes only original material that has not been published and that is not under review for publication elsewhere.

Thank you in advance for your evaluation of the paper.

Sincerely,

Lawrence A. Osborn, B.A.
